The Association of Electric Undertakings,

Bombay Province.

Telefone No.30901,

REGISTED OFFICE:
KILLICK BUILDING.
HOME STREET.

Ref. No.AEU/12/440/51 Bombay, 1st May, 1951.

The Secretary to the Government of Bombay,

Public Works Department,

Secretariat. Bombay.

Dear Sir,

Electricity Control.

Please refer to your letter No.1932/36-El(II) of 6th April 1951, addressed to all controlled electricity supply undertakings in the State proposing to freeze unused supply where consumers are not using their authorised motive power to the full and authorising lincensees to disconnect idle consumers.

The Council are of the view that these proposals are too sweeping and may result in great inequity and harm.

The freezing of unused motive power leads in general appear to be unnecessarily hard on the consumers although it might be justifiable in a few stray cases where the original sanction was overstated. Various factors affect the working of the industries and causes like shortage of raw materials, seasonal work and labour troubles shortage- etc. may result in particular industries temporarily not working to the full capacity. It will be conceded that such causes are beyond their control. The diversity between various types of load usually take care of fluctuations of this kind and does not normally affect the system demand . Therefore, it would be desirable that consumers be generally free to resume their normal activities as soon as the various handicaps and diffuculties mentioned above are overcome

If the general freezing of loads above the level of recent consumption would cause harship the proposal of Government to licensees to disconnect consumers whose installations are idle is even more so. When a person invests large sums of money in a project there must be overwhelming reasons for him to keep his

installation idle . The reasons therefor should be investigated throughly before the drastic steip of disconnecting is undertaken.

Apart from the difficulties mentioned above, there is also the quesstion of loss of revenue to the licensees and idle cables in the ground etc. and this cannot be faced with equanimity by licensees whose financial conditions are not in a happy state.

The Council are of the view that in this matter Government should give licensees discretion to review periodically all dormant and partially used leads, and the latter, in turn would report su such instances to Government and seek their orders. It is hoped that his this suggestion would receive Government's consideration. The Association would be glad to have a discussion with you on this very important subject, should you wish.

Incidentally, a copy of your letter under reply was not fowarwarded to the Association and it was left to a member to draw the Association's attention there to. I would once again request that copies of all correspondence affecting licensees ganerally be fowarded to the Association.

Yours faithfully,

Sd/-
Secretary.

Public Works Department.
"L" Br.

The Assen. of Electrical Undertakings, Bombay Province, for the reasons given in its letter represents that freezing of unused M.P. Leads in general would be unnecessarily hard on the consumers and loss of revenue to the licensees. In the circumstances the Assen. is of the view that in this matter Govt. should give licensees discretion to review periodically all dormant and partially used leads and latter in turn would report such instances to Govt. and seek their orders.

2. In this connections, attention is invited to the fact that the licensee will only disconnect the installation after he has served a notice on the consumer intimating that , if he did not use any electrical energy within three months, his supply would be

disconnected.

The above period of three moths is quite sufficient for the consumer to represent his reasons for his inability to use power and the licensee to foward the reprsentation to Govt. whhh would be dealt with according to its merits. In the circumstances there is no material gain in accepting the suggestion of the Assen. In giving this discretion to the Supply Comapany against whom the consumers are invariably prejudiced. As regards the question of loss of revenue, it may be stated that as the ~~freezn~~ frozen lead would be given immediately to the prospective consumers waiting on the list, the reasen advanced does not seem quite convincing. The assen. may be informed accordingly

3. As regards the Assen's request to discuss this matter with the Secretary, it does not seem necessary at this stage to grant the said request. Any reaction to the above reply may perhaps be awaited.

4. The request made in the last para. of the Assen'sletter is noted and copies of letters addressed to all licensees will be endorsed to this Association hereafter.

Please refer to No.1063/51

The Under Secretary to the Government of Bombay,
Public Works Department, Bombay.

Dear Sir,

Control over supply of electricity.

We refer to your letter No. 1932/36-El(II) of April 6,1951, and as required in para 2 thereof give below the names of consumers using much less than the authorized loads:-

S.No.	Name of the consumer.	Address.	Authorised Maximum demand.	Actual demand last six months.	Remarks
1.	The Moon Mills	Sewri	1,482 KW	15 KW	) Burnt out
2.	The Sun Mills	Lower Parel	800 KW	8 KW	) a fire.
3.	Wallace Flour 'A' Mill - 66	Chikalwadi	285 KW	16 KW	

It should not however be considered that we can spare the above amount for use by another customer as our system is loaded to its maximum limit.

The un-utilized loads may be freezed.

Dear Sir,

Subject:- Control over the supply of electricity.

We acknowledge, with thanks, the receipt of your letter No. 1932/36-El.(II) dated the 6th instant.

2. Our tariffs for L.T. power supply are based on B.H.P. of connected load and no instrument is installed at the consumer's premises to indicate his actual demand. The monthly consumption will not be any criterion in this respect because a small off-take may mean utilisation of the load for a short period only. It does not, therefore, seem possible to furnish the information your ask for in para 2.

Sam [redacted] in case of said.

Dear Sir,

Control over the supply of electricity.

With reference to Government letter No.1932/36-El.(II), dated 6th April , 1951, we are enclosing herewith the list of consumers who are not using for the last six months their authorised loads in full.

From our records we have been able to detect only four consumers who are not using their authoerised motive power to the full, and areonly paying standing charges, while their installations, remain idle.

According to the instructions in para 3 of your letter under reference, we are this day serving the consumers in question, with notice as prescribed in subsections (2) and (3) and of Sub Section (1) (c) of Section 4 of the Bombay Electricity (Special Powers) Act, 1946. The installations shall be disconnected under intimation to your office.

Dear Sir,

Sub:- Information in respect of consumers not using authorised loads in full for the last six months.

We beg to refer you to para 2 of your letter No.1932/36-El (II) of the 6th April 1951, wherein the above mentioned informa-

tion has been called for, in the form of a statement of 5 columns indicated below the para referred above:

In this connection we have to point outthat our consumers are using power under restriction. The monthly conumption of individual consumers using the same size of meter differ so much that it is difficult to fix the standard consumption for a particular size of meter. In the absence of such a standadrad, it is not possible for us to ascertain which consumer is using less than the autherised lead.

We shall thank you to guide us in this matter. However there are a few obvious cases in which power is not being used to the full extent. Action is being taken in respect of such connections.

Yours faithfully,

Dear Sir,

Re: Control over the supply of electricity.

We beg to invite your attention to your letter No:1932/36-El.(II) dated the 6th ulto., wherein it has been stated that Government has decided to freeze the unused supply in case of consumers not using their authorised motive power to the full.

Now it so happens that some consumers are not using the power to the extent of their installed capacity. For instance a consumer is connected with a 20 HP meter, and his avarage monthly consumption comes to about 300 to 400 untis. All the meter consumers are allowed to run their meter from Sun rise to Sun set. thus they have get ample time to run the meters for atleast 8 to 10 hours a day

Under the circumstances we shall thank you to inform us what actions you direct us in this matter, so that we might act accordingly.

1932/36/45460

P.W.D.

Resubmitted with reference to the notes at pp.17-18 ante.

2. The necessary draft circular letter clarifying the meanin of the last col. of the tabular from appended to para.2 of G.L dated the 6th April 1951 is put up for approval. A copy of the letter is being endorsed to the Association of El.Undertaking with reference to their letter dated the 1st May 1951 and no separate reply to them seems necessary.

3. Some references received from certain licensees on this subject are placed at pp. 19-47 ante. These mostly relate to the clarifigation that is now being issued and no separate action on them is necessary except as stated in the following paragraphs.

4. The El. Engr., Baroda Municipality, asks for an extract copy of the Sec. 4. of the Bombay Elecy.(Spl.powers) Act, 1946 The same may be supplied to him as per draft put up.

5.Reports regarding idle and partially idle connections have been received from (i) Tatas (ii) Kalyan E. S.Co. and (iii) Amalgamated Elcy. Co., Bhi wandi. Before any further action is taken against the consumers we may await notification or further details from the licensees in the light of the clarification that is now being issued.

6. Attention is invited to (i) letter dated the 3.5.1951 from M/S. The Inhalkaranji Elec. S.Co. and the letter dated the 23.5,1951 from the Kalyan Elec. S.Co. It appears that the licensees have disconnected the consumers without waiting for period of three moths after serving notice. as required by Sec 4(1) (c) of the Act. This may be brought to the notice of the licensees as per draft put up .p.55 post.

7. Please see letter dated the 2nd May 1951 from M/S. The Ah Ahmedabad Elecy. Co. Ltd. They request Govt. to confirm the presumption that they will have to wait for a period of twelv months after service of a notice on the consumers. It is not clear from where they get the period of 12 months. Sec.4(1)(c)

mentions a period of three months only. This may be pointed out to the Company. The Co. has also pointed out that the reference to Sub-Sec.(3) of Sec.4 in para.3 of the G.L.dated the 6th April 1951 is superfluous since it does not apply to an order made under Sub-Sec.(1)(c) of Sec.4 Their contention is correct. The necessary correction may be issued vide para. 3 of the draft put up at p.57 post.

No.1932/36-El.(I).

Public Works Department,
Bombay Castle(Bombay NO.1.)
18th June1951.

To

All Controlled Electricity Supply Undertakings in the State of Bombay.

Subject:- Control over the supply of electricity.

Dear Sir,

I am directed to refer to Govt. letter No.1932/36El.(II), dated the 6th April 1951 regarding idle and partially idle electric installations and to state that inquires have been received from some of the licensees as to the exact meaning of the term "amout of lead actually utilised" in the last col. of the tabular form appended to para 2 thereof. I am to state in this connection that what is required is the lead actually connected to the supply and not the number of units consumed.or maximum demand.Similarly the "amout of lead autherised" mentioned in the preceding clumn means the lead sanctioned by Govt. or in the case of leads in existence before control, the connected lead notified to the licensee in writing till the date of control. The reports already submitted by some of the licensees should be modified, where necessary, in the light of the above

2. It has also been represented that freesing of loads can may cause loss of revenue to the licensee and haradship to certain consumers who are not in a position to use the supply for benafide

reasons. In the case of idle leads, after a notice is served on the consumer by the licensee a period of three months is allowed to the consumer to connect the supply and during this period he can represent his case. In the case of partially idle leads. while reporting such cases. for orders of Govt., the reasons if any, which the consumer has to advance for non-use of part of the lead should also be communicated to Govt. A sympathetic view will be taken in all cases where the leads have remained idle for good reasons and where disconnection would cause undue hardship either to the consumer or the licensee.

I am also to request that for the words " Sub-Sections (2) and (3)", appearing in line 7 of the Govt. letter referred to above, the words "Sub.section(2)" should please be substituted.

Yours faithfully,

Subject:- Control over the supply of elecy.

Dear Sirs,

With reference to your letter No.180 dt. 3.5.51. 134/2/4 dt.23.5.51. I am directed to invite your attention to the provisions of Sub-section1(c) of Sec.4 of the Bombay Elecy. (Special Powers)Act, 1946, and to observe that it is necessary to allow the consumer a period of 3 months after the service of a notice on him, before the supply is disconnected. I am accordingly to request you to reconnect the supply to the consumer until the expiry of a period of three moths from the date of service of notice on him.

Yours ~~faithfully~~ faithfully,

D.A.:- Nil.

To

M/S The Ahmedbad Elecy. Co. Otd., Ahmedabad.

Subject:- Control over the supply of electricity.

Dear Sirs,

With reference to your letter No.10/4/4349 , dated the 2nd May 1951 , I am directed to state that under Sub-Sec. (1)(c) of Sec.4 of the Bombay Elecy . (Special Powers) Act, 1946, a licensee is required to wait for a period of three months and not 12 months , after the service of a notice on the consumers concerned.

2. As regards the other points raised by you the necessary clarification is being issued separately.

Yours faithfully,

D.A.:- Nil.
